

SPECIFICATION AMENDMENTS

Kindly amend the original filed specification as follows.

Please replace the paragraph/section beginning at page 4, line 6, with the following rewritten paragraph:

The connector has a thickness from 1.0 mm to 11 mm, which facilitate to couple the connector 5 with the upper cover 11 and the case 12. Accordingly, the connector 5 has an inner side and an outer side having a width larger than a width of the inner side to form the two sidewalls of the connector 5 to fit into the two longitudinal grooves 121 respectively. In addition, the thickness of the case side edge of the case 12 is substantially larger than a thickness of the connector 5 such that when the connector 5 is received in the edge port, the connecting device is embedded within the case side edge of the case 12 in a hidden manner.
